PROFESSIONAL SUMMARY

I am a passionate front-end software engineer with a strong background in developing dynamic, user-friendly web applications and a deep understanding of modern web technologies. Proficient in HTML, CSS, JavaScript, and frameworks such as React, with hands-on experience in creating responsive, visually appealing, and fully functional user interfaces. I can collaborate within agile teams to deliver high-quality software solutions that align with client requirements. I possess strong problem-solving abilities, attention to detail, and a passion for staying updated with the latest industry trends to enhance the user experience and streamline development processes. I am also committed to leveraging technical skills and creativity to contribute to innovative and impactful web projects.

RELEVANT SKILLS

HTML, CSS, JS, ReactJS, TailwindCSS, Figma as web developer, Proficiency in Microsoft Office, Google suite, Git and Github

EXPERIENCE

Quality Assurance (QA) Tester
RLabs (Reconstructed Living Lab) | September 2023

- I conducted comprehensive user acceptance testing for Yoma platform, focusing on course delivery functionality and reward system integration.
- I identified and documented UI/UX issues and bugs through systematic testing procedures, contributing to product refinement before launch.
- I provided detailed feedback on user experience and platform functionality, helping optimize the learning experience for end users.
- I collaborated with development team to verify feature implementations and suggest improvements for user engagement.

IT Intern
LINKSO NIGERIA LTD | September 2024

- I supported the IT infrastructure team in maintaining digital systems for oil and gas project management and engineering operations.
- I assisted in troubleshooting and resolving technical issues across multiple departments, ensuring minimal disruption to critical business operations
- I collaborated with cross-functional teams to implement IT solutions that enhanced workflow efficiency in engineering and project management processes
- I gained hands-on experience with industry-specific software tools used in oil and gas engineering and project management.

Personal Assistant to the Executive President
Junior Chamber International Nigeria, FUTO Chapter | 2024 - Present
- I coordinate and manage executive communications, scheduling, and administrative operations for the chapter president, ensuring efficient organizational workflow.
- I support the planning and execution of leadership development initiatives and community impact projects.
- I utilize Google Suite and Microsoft Office to create and maintain executive documentation, presentations, and project timelines.
- I collaborate with executive team members to track project milestones and facilitate cross-functional communication.
- I assist in organizing chapter meetings and events, contributing to membership engagement and chapter growth.
